For more than 20 years, Kevin T. Glasheen has stood at his clients' sides, helping them restart their lives. Together with the seven other lawyers at Glasheen, Valles & Inderman, LLP, he assists victims of industrial accidents, vehicle crashes and defective products.

Named to the *Super Lawyers*® list eight years running, Glasheen considers it an honor to serve. "It means the world to me to help people rebuild lives that they thought were destroyed," he says.

That dedication is reflected in the firm's record of substantial recoveries. After fees and expenses, clients' recoveries include \$13.5 million for a train wreck fatality, \$5 million for a motorcycle accident brain injury case and a recent confidential settlement for a pipeline explosion burn case.

That's why doctors, judges, other lawyers and former clients recommend Glasheen, Valles & Inderman, LLP to injured people.
